Falling shortly before noon after a drop of several degrees in temperature. Unsettled weather with snow in eastern Utah and Colorado are the predictions tonight, with lower temperatures. Unsettled and generally cloudy weather is the forecast for tonight in New Mexico.

## Snow in Greeley.

Greeley, Colo., March 2.—A heavy snow fell here and throughout Weld County today. It is wet and melting rapidly.

## Philadelphia Paralyzed.

Philadelphia, March 2.—The blizzard which began yesterday and continued through the night, shaved today. The railroads appeared to be the worst sufferers, being more completely tied up than in any storm for years. Four deaths were reported in this city directly due to the storm. According to the weather bureau, only four inches of snow fell, but the 45-mile wind drifted it badly.

Railroad traffic on both the Pennsylvania and Reading lines was practically at a standstill in the early part of the day.

No trains had arrived here from New York since last night and in the forenoon no attempt was made to send trains out to that city.

Practically all coal mines in the anthracite field were shut down, due to the storm.

Two deaths were reported at Scranton, Pa. H. W. Woerlock of Cleveland, Ohio, was overcome while returning to his hotel from the Sunday revival meeting in this city. Nearly 1500 persons were marooned all night in the Sunday tabernacle at Scranton, unable to get home.

## Severe Storm of Winter.

Washington, March 2.—The severest storm of the winter swept the Atlantic coast today from Eastport, Maine, to Savannah, Ga., while a cold wave rolling down from the great lakes country overspread the Atlantic states as far south as Florida. Lowest temperatures ever recorded in March were registered in Charleston and Macon and other points in the southeast. Centering over southern New England, the storm brought heavy snows north of Maryland and high winds all along the Atlantic coast. No marine disasters had been reported.

## POKER EQUIPMENT HID UNDER BIBLES

(By Special Wire to Evening Herald.)  
Greeley, Colo., March 2.—Property said to have been stolen and complete poker equipment was found today by officers who searched the home of W. S. Tipton, arrested yesterday charged with counterfeiting. The stolen goods were secreted under Bibles and religious pamphlets. According to the officers, most of it belonged to J. M. Downer of Evans, a small town near here.

The arrest was made by Rowland K. Goddard, United States secret service agent, and Sheriff McAfee.

A. J. Kloch and J. W. Baker, alias J. W. (Blackie) Hayes, a son-in-law of Tipton, who were arrested in connection with the alleged thefts, declared they knew of Tipton's counterfeiting operations. According to the officers, Kloch admitted that he and Baker had systematically robbed a large dry goods store here.

Correct models in Dress and Street Hats for spring now on display. No opening this season. Ferguson, 109 S. Fourth street.

SECOND AND COPPER**MOTHER JONES NOT NEW STOREHOUSE TO TESTIFY IN TRINIDAD**

Congressional Committee Garbed in Slickers and Boots Explore Depths of Delagua Mine.

(By Special Wire to Evening Herald.)  
Trinidad, Colo., March 2.—E. P. Costigan, of counsel for the United Mine Workers of America, late today temporarily withdrew the request for the appearance of Mother Jones before the congressional investigating committee. It is expected that the testimony of the aged strike leader will be taken in Denver.

The committee had planned to visit San Rafael hospital this afternoon to interview Mother Jones. At the time set for the trip to the hospital a special meeting was called at which Mr. Costigan withdrew his request.

Bennie S. Hawkins, senior counsel for the Mine Workers, explained that the change of plan was made because it was feared the taking of testimony in the hospital might interfere with the habeas corpus proceedings instituted for the release of Mother Jones.

## ALL CRIMINAL CASES IN STRIKE WAR CONTINUED

Trinidad, Colo., March 2.—All criminal cases growing out of the present coal strike were discontinued until the May term in district court this morning. The cases include those of Louis Zancatelli, James Bleuvaris, and Robert Uhleip, members of the United Mine Workers of America, against whom informations charging murder have been filed.

Because of the indisposition of Major E. J. Boughton, judge advocate, the hearings on the "Mother" Jones habeas corpus case were postponed until tomorrow morning. H. N. Hawkins, counsel for the United Mine Workers urged speedy action by the court.

## CONGRESSMEN EXPLORE DEPTHS OF DELAGUA MINE

Trinidad, Colo., March 2.—Representatives Byrnes, Evans and Sutherland, of the house subcommittee investigating the Colorado coal miners' strike, today explored the Delagua mine of the Victor-American Fuel company, the largest producing colliery in the state. The congressmen left Trinidad early in the day, making the twenty-mile trip by automobile. They were met at the mine by Superintendent D. W. Strongman, who acted as host for the Victor-American company.

At the mine office the congressmen were supplied with overalls, jumpers and miners' caps. The congressmen went through several miles of workings and saw at first hand the toll of the miners. They interviewed a number of the men, questioning them regarding working conditions and their relations with their employers. After the visit to the mine the representatives returned to Trinidad. It was generally understood, although not yet officially announced, that the testimony of Mother Mary Jones would be taken during the afternoon.

## COLORADO COURT UPHOLDS THE DOG TAX

Duncan McPhail Loses in Famous Denver Canine License Suit when Supreme Court Decides.

(By Special Wire to Evening Herald.)  
Denver, March 2.—The right of a municipality to hit and collect a tax on dogs was upheld by the state supreme court today in the case of Duncan McPhail of Denver, who had carried it up through the justice, county and district courts to the highest tribunal of the state. In each court the finding was against McPhail, who previously had announced that he would rot in jail before he would pay. There were twelve typewritten pages in the court's opinion. McPhail was in court today. He gave no intimation as to whether he would comply with the court's order.

## MINE ASSESSMENT BASED ON NET ONE VALUE

Denver, March 2.—The assessment on mines under the 1913 law will be on a basis of one-half the gross and all the net value of the ore, under a decision of the state supreme court handed down today. The decision was written by Justice W. H. Shabert.

## INVESTIGATING ALLEGED STEEL TRUST REBATES

(By Special Wire to Evening Herald.)  
Washington, March 2.—In an effort to ascertain what foundation there may be for charges that the United States Steel corporation has received during the last six years illegal rebates from the railroads on freight charges, Commissioner Baran of the Interstate commerce commission today examined David Lamar of New York and William S. Gross of Iowa, on whose allegations the senate passed a resolution requesting the committee to inquire into the subject.

**NEW STOREHOUSE TO BE ERECTED AT ONCE**

Plans All Ready for New Building to Take Place of One Destroyed by Fire Last Night.

## LOSS ESTIMATED AT ABOUT \$20,000

City Department Makes Effective Fight Against Flames in Spite of Serious Handicap of Short Water.

Fire reduced the Santa Fe railroad storehouse, near the shops, to a mass of ruins late yesterday afternoon, entailing a loss of at least \$20,000. One fireman was slightly injured. Sparks from a passing engine or the smokestack of the power plant are supposed to have started the blaze.

The fire was discovered by Louis Griggo, a watchman, shortly after 5 o'clock. Griggo's alarm was answered by the shop firemen, and at 5:30 o'clock, a few minutes later, the apparatus at the Central station was on the scene.

By that time the fire had spread through the south end of the storehouse, in spite of five streams that the Santa Fe firefighters had started.

The Central engine started pumping at the Santa Fe hydrant, but the water pressure was too low for effective service. Chief Klein had the engine disconnected and ran to a city hydrant outside the railroad yard. He said afterwards that the damage would have been considerably less had the men not been compelled to make that change. The distance from the fire to the city hydrant was so great that only one line of hose was available.

The fire spread to the north end of the building while the men were changing hydrants, and at 6:20 Chief Klein called the Highlands company into service.

At 7 o'clock the storehouse was a mass of ruins, and with the firemen pouring water on the pile all danger of a spread was over.

The Highland company held up the eastbound limited thirty minutes with a line of hose across the track.

A falling piece of iron knocked Capt. Fred Bassett's helmet off and gashed his right eye. The wound was dressed by a doctor and he returned to duty.

Assistant Chief Conroy was knocked down by a falling ladder.

The destruction of the building fits in a way, plans already made by the railroad. A new storehouse, included in the plans for the new shops, has been designed, and it will be constructed at once. F. E. Connors, the general storekeeper, was here several days last week conferring with K. R. Stewart, the local storekeeper, regarding the plans for the new storehouse. Mr. Connors, who left for El Paso yesterday, is expected to arrange for the immediate construction of the new house, which is to be situated 1,000 feet south of the general office building.

Some of the railroad officials estimated the probable damage at \$20,000 or \$40,000, but a good deal of the stores, made of brass and iron, is likely to be salvaged, and Storekeeper Stewart thinks \$20,000 will cover the damage.

Construction Begins on Highway to Isleta—Forest Service Commences Construction in Tijeras Canyon.

## COUNTY PUTS IN \$2,500 TO BUILD BRIDGES

Officials of the forestry service announced this morning that today or tomorrow work will be started on the government's stretch of the Tijeras canyon road through the forest reserve. The stretch runs fourteen miles, beginning at Silva's and ending at Seville. Work will be started at Silva's.

Last week the state force began work on the state road to Isleta.

Using the mules purchased recently from the county, the state gang started in at the Barrels bridge, and the plan is to push the work as rapidly as possible.

The forestry service has been allotted \$300 a mile for the Tijeras road work, half of which is available now. The rest of the sum to be expended will be available after July.

The county has \$2,500 in hand to devote to building bridges in the canyon, and the roads boosters are anxious to see that money put to work. It can be used only for bridges, but that much work added to the general sum of improvements will comfort the good roads evangelists in the First Presbyterian church.

## CORRECT MODELS OF ALBUQUERQUE SHOW ANOTHER INCREASE

The Sunday schools of Albuquerque yesterday showed another important gain in attendance. Following is the report:

First Methodist, 25%; Central Avenue, 21%; Congregational, 15%; Presbyterian, 20%; Gold and Broadway, 12%; Baptist, 10%; Episcopal, 8%; Lutheran, 5%; total, 1,272. Last Sunday, 1,262; gain, 16.

Churches showing gains: First Methodist, Central avenue Methodist, Presbyterian, Baptist, Gold and Broadway. The largest gain was in the First Presbyterian church.

## McGEEHAN CHIEF'S LITTLE RED WAGON SMASHED

Automobile suffers in collision with armor-plated farm wagon this morning.

Fire Chief Klein's automobile and others interested in boosting better highways through this section took prominent parts in a meeting at La Tijera, in Tijeras canyon, yesterday afternoon. The meeting, held in Jose Dominguez's hall, was attended by 100 residents of the vicinity.

The good roads evangelists were A. Van Deuse, A. B. Stroup, Dr. Kirk, the geologist, N. M. Cudahay, Dr. Timan, John N. Strumquist, Dr. J. Gurule, T. J. Passmore, Forest Engineer James F. Mullin and Mayor D. K. B. Sellers. They left this city at 1:45 o'clock, traveling in the car of Messrs. Van Deuse, Cudahay, Strumquist, Sellers and Passmore. The journey to Tijeras took up an hour and a quarter. Mrs. Stroup, Mrs. Cudahay and Mrs. Strumquist made the trip.

Speeches were made by Mayor Sellers, Mr. Mullin, Dr. Kirk and Mr. Stroup. The latter explained good roads pictures shown with a projecting machine by Mr. Van Deuse.

The pupils of the San Antonio school, under the direction of their teacher, Mrs. Chavez, sang two selections, "Joe Camp," one of the children, recited Longfellow's "The Children's Hour," and a six-year-old girl sang a verse of "America."

The party returned to Albuquerque at 5:30.

## WOMAN'S BEAUTY NO SECRET

It all lies in the care she bestows upon herself and in keeping at bay those dread ill's peculiar to her sex.

Albuquerque citizens endorse them.

Mrs. Fournelle, 401 South Broadway, Albuquerque, has recommended Doan's Kidney Pills to many of my friends and acquaintances and they have learned of their value. Like myself, they all think highly of them. Some years ago I used three boxes of Doan's Kidney Pills and was cured of pain in my back that had troubled me for many years. I was also relieved of rheumatic pains and I have always been bothered to say exten-

sively since I did not take an opinion of Doan's Kidney Pills now as I did when I publicly recommended them some years ago. I haven't needed any kidney medicine since. I am certainly grateful for the cure Doan's Kidney Pills made.

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York sole agents for the United States.

Remember the name—Doans—and take no other.

Henry Davis, Phone 833.
